PART ONE

Brand Foundation

01 · Brand Overview & Philosophy

Mederna Naturals is the natural supplement division of Mederna — a modern pharmaceutical and health company. Mederna Naturals is a focused, philosophy-driven sub-brand that lives at the intersection of clinical science and the timeless power of nature.

> *"Natural remedies are not limited by era or technology. The compounds that supported human health thousands of years ago support it today. Nature is timeless — and timeless things don't need to reinvent themselves."*

The brand bridges two worlds often positioned as opposites — modern science and ancient natural wisdom — and argues they were never in conflict. Science does not replace nature. It explains it.

02 · Mission, Vision & Values

MISSION

To produce natural supplements of the highest clinical quality — grounded in scientific research, rooted in nature's most powerful compounds — that support long-term human health across all demographics.

VISION

To become the leading natural supplement brand in the MENA region, recognized for scientific integrity, product purity, and enduring trust.

BRAND VALUES

SCIENTIFIC INTEGRITY

Every claim is backed by research. Every ingredient is dosed meaningfully. We never overclaim.

NATURAL PURITY

Ingredients derived from nature, processed with care, free of synthetic shortcuts.

TIMELESS THINKING

We don't chase trends. We build products as relevant in 20 years as today.

HUMAN TRUST

We speak to people, not consumers — with honesty, restraint, and respect.

> *"العلم يثبت. الطبيعة تدوم." — "Science proves. Nature endures."*

03 · Brand Identity & Voice

BRAND CHARACTER

If Mederna Naturals were a person: a quiet expert who speaks once and means it. Confident without seeking validation. Grounded in knowledge, not trend. Their credibility comes from the weight of what they say, not the volume.

TRAIT	WHAT IT MEANS IN PRACTICE
Authoritative	Leads with science. Backs every claim. Speaks from knowledge, not marketing brief.
Restrained	Says less than it could. The unsaid creates trust. Silence is used intentionally.
Timeless	Never chases trends. The brand looks the same in 2026 as it will in 2036.
Premium	Every touchpoint feels considered. Nothing cheap, nothing loud, nothing unnecessary.
Human	Science without warmth is cold. Mederna Naturals speaks to real people.

VOICE RULES

Tone: Calm. Certain. Unhurried.

Register: Educated but never academic. Accessible but never simplistic.

Language: Arabic-English bilingual. Arabic for cultural resonance. English for scientific credibility.

THE BRAND NEVER:

Hypes. Uses fear. Promises miracles. Talks down to the audience. Chases viral moments at the expense of character.

04 · Visual Identity System

ELEMENT	SPECIFICATION	USAGE
Primary Color	Deep Black #0A0A0A	Backgrounds, primary text, dominant surfaces
Brand Red	Dark Red #7A0000	Accents, CTAs, highlights, the Redish product line
Off-White	#F5F0EB	Text on dark backgrounds, secondary surfaces
Gold	#B8975A	Premium accents, awards, special editions
Primary Typeface	Playfair Display (Serif)	Brand name, headlines, pull quotes
Secondary Typeface	Inter (Sans-serif)	Body copy, captions, UI elements

All visual content must feel cinematic, intentional, and minimal. Dark backgrounds are default. Light is used dramatically. Every image should look like a still from a film — not a product catalog.

PART TWO

Market & Audience

05 · Market Analysis

The MENA natural supplement market is at an inflection point. Rising health awareness, post-pandemic wellness consciousness, and a young digitally connected population are converging to create one of the fastest-growing supplement markets globally.

$3.2B	8.4%	67%
MENA SUPPLEMENT MARKET SIZE 2025	PROJECTED ANNUAL GROWTH RATE	EGYPTIAN CONSUMERS PREFER NATURAL OVER SYNTHETIC

KEY MARKET DYNAMICS

- **Trust deficit:** Egyptian consumers are increasingly skeptical of foreign brands. Local, science-backed brands have a significant trust advantage.
- **Cultural alignment:** Natural, plant-based remedies carry deep cultural resonance. Traditional medicine is respected heritage in MENA.
- **Digital-first discovery:** TikTok and Instagram are where supplement purchases begin — content before search.
- **Category white space:** The male vitality sub-category is high-demand but dominated by cheap, loud, untrustworthy products — leaving a massive gap for a credible premium brand.
- **Premiumization trend:** Target-bracket Egyptians will pay a premium for brands that feel credible, clean, and scientific.

06 · Target Audience & Personas

Mederna Naturals serves all adults who care about natural, science-backed supplementation. For the launch phase (Redish), the primary target is Egyptian men aged 25–45. Future products will expand to women and broader wellness audiences.

DEMOGRAPHICS — REDISH MAN

Male · Ages 28–42 · Cairo, Alexandria · Mid-to-upper income · University educated · Professional or business owner

PSYCHOGRAPHICS

Achievement-oriented. Values control. Private about personal health. Skeptical of hype. Responds to credibility and restraint over excitement.

DIGITAL BEHAVIOR

Active on Instagram and TikTok. Consumes educational content. Discovers products through content. Shares content that makes him look knowledgeable.

PAIN POINTS

Declining energy and drive. Distrust of synthetic supplements. Cultural discomfort discussing sexual health. Overwhelmed by low-quality options.

SECONDARY PERSONA — FUTURE PRODUCTS

DEMOGRAPHICS

Female · Ages 24–38 · Urban MENA · Educated · Health-conscious · Career-focused

PSYCHOGRAPHICS

Values clean ingredients and brand authenticity. Distrusts endorsements without substance. Wants to feel empowered, not sold to.

Note: The Mederna Naturals parent brand is intentionally gender-neutral. Redish is a masculine sub-brand. Future products will carry their own sub-brand identities under the Mederna Naturals umbrella.

07 · Competitive Landscape

COMPETITOR TYPE	WHERE THEY FAIL	OUR ADVANTAGE
International Mass Brands (GNC, Optimum)	Synthetic-heavy, no cultural resonance, generic positioning	Natural formula, local brand, cultural depth
Local Honey/Herbal Sellers	No science, no premium positioning, low credibility on efficacy	Clinically dosed, scientifically backed, premium design
Loud "T-Booster" Brands	Untrustworthy tone, fear-based, banned on platforms, no brand depth	Restrained premium positioning, platform-safe, brand identity
Imported Natural Brands	No Arabic content, no MENA cultural context, high price without local trust	Built for this market, bilingual, culturally resonant

08 · Positioning & Differentiation

> *"Mederna Naturals is where clinical science meets the enduring wisdom of nature — built for the MENA market, trusted across generations."*

Science First

EVERY CLAIM BACKED. EVERY DOSE MEANINGFUL.

Nature Proven

ANCIENT COMPOUNDS. MODERN VALIDATION.

Built for MENA

LANGUAGE, CULTURE, AND CONTEXT — ALL CONSIDERED.

THE 6 VIDEO FORMATS

THE SILENCE

No voiceover. No text. Pure cinematic B-roll. Sound design only. The most brand-true format.

THE AUTHORITY

Single calm male voice over close-up footage. Never raises in pitch. Information delivered like it's obvious.

THE STATEMENT

Direct to camera. Minimal movement. One sentence opens — then silence — then explanation. Power in the pause.

THE DOCUMENT

Text-on-screen. Dark background. Red and white type appears word by word. Feels like a classified brief.

THE EDUCATION

Structured, data-led. One ingredient, one mechanism, one insight. Cinematic — never whiteboard energy.

THE FILM

Full cinematic short. 45–90 seconds. Story arc. No product until the last moment. Hero videos.

13 · Sensitivity & Platform Safety Framework

Redish is primarily a sexual performance and libido supplement. This requires deliberate communication that respects MENA cultural norms and platform content policies simultaneously.

THE 3-LAYER COMMUNICATION SYSTEM

Layer 1 — What You Say Publicly: Energy. Vitality. Drive. Stamina. Peak performance. Masculine wellness. "Important moments." "Certain occasions."

Layer 2 — What They Understand Privately: Every man in the target audience knows exactly what "drive," "stamina," and "important moment" mean. You never say it. They always know it.

Layer 3 — What the Product Delivers: Clinically dosed ingredients with direct libido and hormonal mechanisms. The product truth is the foundation.

	INSTAGRAM — ALWAYS CODED	TIKTOK — SLIGHTLY MORE DIRECT
Performance dose	"قبل أي لحظة مهمة بساعة" — coded, elegant	"قبل مناسبات معينة بساعة" + knowing pause
Drive/libido	Always "drive," "vitality," "stamina"	Same, but more direct in tone
Ingredient names	Use freely — audiences will search them	Use freely — ingredient names are not flagged

WORDS NEVER USED

testosterone boost · libido · sexual performance · erectile · before/after claims

APPROVED LANGUAGE

drive · vitality · stamina · energy · peak performance · masculine wellness · hormonal balance · important moments · certain occasions · supports · clinically studied

14 · Influencer & Community Strategy

TIER	FOLLOWER RANGE	COUNT	NICHE	BRIEF
Micro	30K – 150K	5–8	Fitness, lifestyle, men's wellness	Organic integration — "هذا ما أستخدمه" style, not sponsored ad
Mid-tier	150K – 500K	2–3	Health education, nutrition	Educational collab — ingredient breakdowns, science

COMMUNITY TACTICS

- **DM Automation:** Trigger words ("علم," "Redish," "أنا," "Boron") → Auto-DM via ManyChat with product info + link.
- **Comment Seeding:** Post a seed comment within 30 min of every video. "قبل Tongkat Ali اللي جرب كده يقول رأيه 👇"
- **Stories Rhythm (3x/week):** Polls on ingredient knowledge / Behind-the-scenes / Countdowns before new content or product drops.
- **Save Optimization:** Every carousel designed to be saved. Saves are the strongest algorithmic signal on both platforms.

15 · Growth & Conversion Tactics

TACTIC	PLATFORM	GOAL
Comment loop CTAs	TikTok + IG	Algorithmic reach boost
DM automation	Instagram	Warm lead conversion
Save-bait carousels	Instagram	Algorithm + retention

Brand Tone Laws — Never Break

ALWAYS

- Lead with science. Let nature validate it.
- Coded language — "drive," "vitality," "stamina," "important moments."
- Arabic-English mix for MENA premium-local balance.
- Calm. Restrained. Certain. Never loud.
- Speak to identity, not insecurity.
- Auditory + visual hook in first 1.5 seconds of every video.
- Brand identity overrides every other content decision.

NEVER

- "Libido," "sexual," "erectile," "testosterone boost" (explicit).
- Before/after imagery of any kind.
- Fear-based or shame-based messaging.
- Generic stock footage — everything intentional.
- More than 2 sentences before the hook lands in any video.
- Trends that compromise brand character.
- Imitating competitor tone — Redish has its own world.
